

2017 Idaho Women's Health Check Eligibility Guidelines

Women's Health Check is a breast and cervical cancer screening program. Women's Health Check provides mammograms, and/or Pap test and pelvic exams for women who have no other resources for breast and cervical screening or needed diagnostic tests and meet the eligibility requirements listed below.

Women must meet the following WHC eligibility criteria:

- Low Income (see table below)
- No health insurance coverage for Pap tests or mammograms
- U.S citizen or eligible alien (with at least 5 years of residency)
- Age 21- 64
- Women over age 65 who are NOT eligible for Medicare or cannot afford Medicare Part B

Women who live in geographically or culturally isolated communities in urban and rural areas, and women who have never been screened for breast and/or cervical cancer in the last 5 years are at high risk for breast and cervical cancer and are a priority for enrollment.

Limited enrollment and services available for uninsured women who meet these additional criteria as confirmed by a healthcare professional:

- Uninsured women age 21 – 39 symptomatic for breast cancer
- Uninsured women age 40 – 49 at high risk (personal history) and/or symptomatic for breast cancer
