The end of January is still when we anticipate completing the remodel. WIYSC has had 130 admissions since opening.</li> <li>Funding and Budgets<br/>We continue to be paid by Magellan. We still do not have a contract, but we did learn about another form to fill out. This was completed and sent to them last week. Rebekah indicated to us that the contract is signed. Cas presented on the revenue and expenditures of WIDCCC in FY25 so far. We are in a good place with the budget.</li> </ul> Pre-Prosecution Diversion Program Update<br>The PPD program is ready to accept referrals from crisis centers. The program is for adults in Canyon County at risk of being arrested if their behavioral health needs go unaddressed, but not generally for those who have been arrested in the past five years. The goal is to keep them out of the justice system and provide help.<br>Q: Is the program going to monitor the success of the program? |

Motion to Approve Minutes  
Cas will send Briana nomination form and add her membership to November's agenda

Cas will continue to reach out to Magellan to assess ETA for signed contract

Cas will continue to provide the committee with a budget update every month

Vito will connect with Glenda at St. Al's and Abigail at WIDCCC to further discuss how people going through ERs and the crisis center can get connected to the program.

|      |                      |                   | <p>A: Yes, through their data integration system, which is essentially an EHR<br/> No insurance or billable hours are required. They can provide voluntary and comprehensive ongoing support.<br/> A selection panel will determine eligibility for the program.</p>   |                                    |
| 1:20 | Crisis Center Update | Abigail, Clarvida | <p>Monthly WIDCCC Presentation &amp; Discussion<br/> September saw record numbers! The highest we've seen since taking over the contract. Demographics breakdowns remain typical, but the percentage of completely new clients also went up from August to September.<br/> Clarvida can adjust some of the EHR data options after the EHR update in mid-November.<br/> Diversion mostly from hospitals with some diversions from harm to self/others, 911/law enforcement involvement, and substance use.<br/> They attended several community events and partnerships meetings. The meeting with Lifeways went very well. They navigated through some of the referral challenges they were experiencing.<br/> The transition away from security has been going well. Security sometimes escalates things more than they help. All staff have been CPI trained to address the de-escalation needs that come through the center.<br/> WIDCCC recently had an interaction with a client where they connected with 988 and MRT and got them to the level of care the person needed.</p> |                                    |
